1. GENERAL INFORMATION ABOUT THE COMPANY

Kopex Company was founded by the Regulation No 128 of the Minister of Mines and Energy dated 4 November 1961 as a State-owned enterprise under the name of „Przedsiębiorstwo Budowy Zakładów Górniczych za Granicą – KOPEX“ – „KOPEX Overseas Mine Construction Company and after entering in the Register of State-owned Enterprises on 1 January 1962 started the activity as a general contractor for complete mining facilities / projects and equipment abroad. In May 1971 enterprise obtained an authorization for conducting business in the foreign trade on export and import of mining and drilling machinery and equipment, on the exclusivity basis, as well as execution of turnkey mining projects. Since 1 January 1989, as a result of reorganization made, a State-owned enterprise under the name of Przedsiębiorstwo Eksportu i Importu KOPEX / KOPEX Export and Import Company, based in Katowice was set up.

On 25 October 1993, by the Regulation No 267/Org/93 of the Minister of Industry and Trade the enterprise was transformed into a Single-Entity Partnership of State Treasury under the name of Przedsiębiorstwo Eksportu i Importu KOPEX Spółka Akcyjna / KOPEX Export and Import Joint Stock Company. On 19 November 1993 transformation act was signed and first Statutes of Association was established as a notarial act. On 3 January 1994 the Company was entered in the Commercial Register under the number RHB 10375. Share capital contained 1.989.270 bearer common shares with a par value of PLN 100.000 (after the denomination: PLN 10) each.

As a part of the privatization program, on 17 December 1996, the Cabinet adopted the Resolution No. 142 authorizing the introduction of KOPEX shares for public trading on the Warsaw Stock Exchange, the sale of at least 25% of the shares offered to the public and the acquisition of 15% of the shares by employees of KOPEX. On 4 June 1998 the Company debuted on the Warsaw Stock Exchange. Following the entry into force a new legislation on business registration in 2001, KOPEX S.A. was entered in the National Court Register under the new number: 0000026782. On 23 October 2003 the company's new name was entered in the register: KOPEX Spółka Akcyjna (currently used) and the abbreviation KOPEX SA was approved.

On 16 December 2004 the State Treasury made a 64,64% of KOPEX S.A. shares, as a non-cash contribution to the company Krajowa Spółka Cukrowa S.A. / National Sugar Company in exchange for shares of this company covered by the State Treasury in connection with the increase of its share capital.

9 February 2006 was a milestone in KOPEX S.A. privatization process, since National Sugar Company sold (after a public invitation) all the KOPEX S.A. shares held to the branch investor – Zabrzeńskie Zakłady Mechaniczne S.A. / Zabrze Mechanical Works Joint Stock Company (ZZM S.A.) based in Zabrze. The ZZM-KOPEX Group was set up, the biggest industrial group in the mining machinery and equipment sector in Poland. Integrated potential of the Group created the possibility of offering a comprehensive equipment and services for mining, placing the ZZM-KOPEX Group in the strict lead of the biggest global mining companies.

Another significant stage was in the second half of 2007. KOPEX S.A. issued Series B bearer shares in a public trade directed to ZZM S.A. shareholders and reverse takeover process of ZZM S.A. by KOPEX S.A. was accomplished (KOPEX S.A. entered into possession of 1.285.406 ZZM S.A. shares representing 97,57 of its share capital). As a result of this transaction KOPEX S.A. became the dominant subject and a leader of KOPEX Capital Group which includes over 50 companies in Poland and abroad.

At the end of 2009 issue of 6.700.000 KOPEX S.A. Series C bearer shares was successfully executed. Offer on acquisition of shares was directed to the selected investors within the meaning of Art. 7, Par. 7, Item 2 of Law on Offer. On 1 December 2009 an increase of the company's share capital was entered into register and it currently amounts to PLN 74.332.538.

KOPEX S.A. has a registered seat in Katowice, 1 Grabowa Str.

(information includes the period from 1 January 2009 to 31 December 2009 together with amendments during the preparation of consolidated annual report)

1) Series-C share issue with option of depriving present shareholders of their rights to acquire new shares in the whole.

On 25 June 2009 the General Meeting of Shareholders of the Company adopted a resolution on changes in the Statutes of Association of the Company and on authorisation of the Management Board to raise share capital of the Company through share issue with option of depriving present shareholders of their rights to acquire new shares in the whole. The change in Cl. 11a of the Statutes of Association of the Company resulting from the Resolution was legally valid registered by Decision of the District Court in Katowice, the Eight Commercial Division of the National Court Register on 24 September 2009. On 2 November 2009 the Management Board of the Company basing on the aforesaid authorisation adopted a resolution on raising share capital of the Company within the in-coming capital by share issue in the equity not exceeding 6,700,000 Series C share of nominal value PLN 1.00 each and depriving present shareholders of their rights to acquire new shares. Dom Maklerski BZ WBK S.A. / BZ WBK Brokerage Home S.A. with registered seat in Poznań was the entity offering the shares. All the shares were offered for acquisition to investors selected by the Management Board, in compliance with with Art. 7 Par. 3 Item 2) of the Law on Offer, i.e. to the investors who on the day of determining issue price are going to acquire Shares of the value amounting to at least 50.000 (say:fifty thousand) EUR, calculated in accordance with their issue price. On 9 November 2009 the Management Board of the Company adopted resolution in which the issue price of common bearer Series C

shares was determined at the value amounting to PLN 23,50, on the grounds of Cl. 11a of the Statutes of Association. The Issue Price was approved by the Supervisory Board and determined considering recommendation of Dom Maklerski BZ WBK S.A. / BZ WBK Brokerage House S.A. with registered seat in Poznań, as the Issuer, based on the outcomes resulting from creating demand book. All the offered shares were acquired by 51 investors and the value of the shares issue amounted to PLN 157.450.000. On 1 December 2009 the Company received the decision on registration raising the Company's share capital and registration of 6.700.000 common bearer Series C shares. After registration share capital of the Company amounts to PLN 74.332.538,00 (say: seventy four million three hundred thirty two and five hundred thirty eight) and to the number of 74.332.538,00 (say: seventy four million three hundred thirty two and five hundred thirty eight) shares of nominal value 1.00 zloty (say: one zloty) each, including:

- a) 19.892.700 (say: nineteen million eight hundred ninety two thousand and seven hundred) common bearer Series A shares,
- b) 47.739.838 (say: forty seven million seven hundred thirty nine thousand and eight hundred thirty eight) common bearer Series B shares and
- c) 6.700.000 (say: six million and seven hundred) common bearer Series B shares.

On the grounds of the Resolution No. 700/2009 of the Management Board of the GPW/WSE in Warsaw , 6.700.000 common bearer Series C shares were admitted to trading on an official stock-exchange primary market and starting from 14 December 2009 the aforesaid shares were implemented to trading on an official stock-exchange primary market at usual procedure, subject to registration of the shares by Krajowy Depozyt Papierów Wartościowych S.A./National Depository of Securities on 14 December 2009. Since 14 December 2009 there are altogether 74.332.538 shares quoted designated with PLKOPEX00018 code (before the change there was 67.632.538 KPX shares quoted).

In the evaluation of the Issuer, shares issue was successful and allowed the Issuer to obtain funding for further canvassing to increase the value of the Company and for the Group's development and its strengthening. Part of the funding of the above mentioned issue was earmarked for the purchase of shares of Rybnicka Mafryka Maszyn „Ryfama“.

Rybnicka Fabryka Maszyn RYFAMA SA / The Machine Factory RYFAMA is a company that has been experienced in designing and manufacturing mining machinery and equipment destined for underground mining. RYFAMA is globally recognized for manufacture of complete transport solutions, especially for scraper conveyors. The Company manufactures also crushers installed on a conveyors and other components used in mining machinery: reducers, over-lapping return-ends, anchoring and advancing devices, rope suspensions. Acquisition of the company RYFAMA is one of the elements of the acquisition process, executed within the framework of strategy for enhancing the KOPEX Group competitive position in manufacture of complete longwall system.

3) Purchase of KOPEX SA own shares under the Acquisition Programme:

In the period from 15 December 2008 until 5 February 2009 (inclusive) there were acquired altogether 276.500 own shares of KOPEX S.A., at a average price of PLN 10,75 per share; the acquisition was executed in the framework of „Acquisition / buy-back of KOPEX SA own shares...“, in the part concerning acquisition of the own shares to resale them further, basing on the authority granted the Management Board, by the terms of resolution of the EGM of KOPEX SA dated 11 December 2008 and by the terms of the resolution of the Management Board dated 12.12.2008. The acquired shares made 0,409% of KOPEX SA share capital. On 9.02.2009 „Acquisition / buy-back of KOPEX SA own shares Programme“ was suspended (current report RB29/2009 dated 9.02.2010). The reason of suspension was a doubt arisen from interpretation of regulations of the amended Law on Public Offer and Conditions for Admitting Financial Instruments to the Organized System of Trading and on Publicly Traded Companies (new regulations entered into force on 13 January 2009, a month after beginning of acquisition of own shares). Financial Supervision Commission by letter dated 9 April 2009 (DNO/WNO/023/9/4/09/MR), responded to the request of the Company and noted that quoted: „the acquisition of own shares by a public company depending on the majority shareholder is the indirect acquisition of shares of a public company“. As a result of this interpretation, Mr. Krzysztof Jędrzejewski, the majority shareholder of the Issuer, corrected a notice of ownership of KOPEX’s shares, as the Issuer informed in the current report RB 53/2009 dated 21 April 2009. After that date, the Company has not acquired own shares.

The merger of these companies is a result of restructuring ZEG Capital Group and is aimed at reducing costs and will help to simplify and strengthen the organization of the group. On 22.07.2009 the General Meeting of ZEG SA adopted a resolution on giving consent to the plan of merger and a resolution on the merger of ZEG SA (acquiring company) with ZEG-ENERGETYKA Sp. z o.o. and ZEG-PCB Sp. z o.o. based in Tychy (companies being acquired). On 3.08.2009 the merger was legally valid by the decision on registration of the District Court Katowice – East based in Katowice. 3 August 2009 is the date of the merger. ZEG SA has held 100% of shares in each company being acquired hence the merge has been achieved without ZEG SA share capital increase. Subjects of activities of the acquired companies will be continued by ZEG SA based in Tychy.

b) merger of the Issuer's subsidiary – company KOPEX Construction Sp. z o.o. with registered seat in Katowice and merger of the Issuer's indirect subsidiary – company KOPEX-Comfort Sp. z o.o. with registered seat in Myslowice:

On 8 December 2009 Assemblies of Partners of companies: KOPEX Construction Sp. z o.o. with registered seat in Katowice and KOPEX-Comfort Sp. z o.o. with registered seat in Myslowice (subsidiary of the KOPEX Equity Sp. z o.o.) adopted a resolutions on merger by acquisition by the company KOPEX Construction Sp. z o.o. with registered seat in Katowice (acquiring company) a company with similar subject of activity – KOPEX-Comfort Sp. z o. o. with registered seat in Myslowice (company being acquired) by conveying all assets of the company being acquired to KOPEX Construction Sp. z o.o. together with increasing the share capital of the acquiring company). On 18.03.2010 the merger was legally valid by the decision on registration of the District Court Katowice – East based in Katowice. 18 March 2010 is the date of the merger. The share capital of the company KOPEX Construction Sp. z o.o. with registered seat in Katowice has increased from PLN 3.227.000 to PLN 7.473.000 and is divided into 10.676 shares at a nominal value of PLN 700,0 each. New shares in the increased share capital of the KOPEX Construction Sp. z o.o. (result of the merger) has acquired shareholder – the Issuer's subsidiary, company KOPEX Equity Ltd, which currently hold 7.819 of shares, making 73,24% of the increased share capital and entitling to the same number of votes at the assembly of partners. Share of other shareholder – KOPEX SA decreased from 61,97% to 26,76% of the share capital (state of ownership of shares has not changed, KOPEX holds 2.857 shares).

6) Suspension of activities or liquidation of companies taken in the process of restructuring and organizing companies from the KOPEX Capital Group:

a) suspension of activities of the Issuer's indirect subsidiary – Grupa ZZM-KOPEX Sp. z o.o./ the ZZM-KOPEX Group Sp. z o.o. with registered seat in Katowice:

On 1 September 2009 entered into register a temporary suspension of activities (for up to two years) of an indirect subsidiary Grupa ZZM-KOPEX Sp. z o.o. KOPEX Equity Sp. z o.o. based in Katowice (the Issuer subsidiary) holds 98% of shares which make the same number of votes on the general meeting. KOPEX Construction Sp. z o.o. based in Katowice holds 2% of shares. This decision has been made due to the fact that company has not started its activity (company has no employees).

b) suspension of activities of the Issuer's indirect subsidiary KOPEX ENGINEERING Sp. z o.o. with registered seat in Katowice:

On 31.12 2009 entered into register a temporary suspension of activities (for up to two years) of an indirect subsidiary KOPEX ENGINEERING Sp. z o.o. 4. STATEMENT ON CORPORATE GOVERNANCE IN KOPEX SA IN 2009

According to §91 clause 5 point 4 of the Minister of Finance Regulation dated 19 February 2009 on current and periodic information conveyed by issuer of securities and conditions of recognizing as equivalent information requested by legal regulations of a country that is not a member country (Dz.U. z 2009, Nr 33, poz.259 with the changes) – **The Management Board of KOPEX SA convey a statement on corporate governance in 2009.**

a) Indication of the set of corporate governance rules governing the Issuer or which the Issuer can use freely and the place where the set is publicly available.

The Issuer is governing by the corporate governance rules set forth in the „Best Practice Rules for WSE Listed Companies“ being the annex to Resolution No. 12/1170/2007 of the Supervisory Board of Warsaw Stock Exchange S.A., dated 4 July 2007. These rules came into force on 1 January 2008 (source of this document is publicly available on Warsaw Stock Exchange official website devoted to corporate governance and on NewConnect www.corpgov.gpw.pl <http://corpgov.gpw.pl/assets/library/polish/dobrepraktyki2007.pdf>)

The Management Board of the Issuer taking into consideration experience in applying corporate governance rules in KOPEX SA, has adopted with effect from 1 January 2008 a new statement on corporate governance in

KOPEX SA by implementation of the rules of the document „Best Practice Rules for WSE Listed Companies“. The content of the Company’s statement (current report RB1/2008, dated 3.01.2008) has listed the rules which Issuer does not comply with, together with explanations of their non-compliance. Both documents, i.e. „Best Practice Rules for WSE Listed Companies“ and statement on corporate governance in Kopex SA are available on website www.kopex.com.pl, tab Investor Relations / Corporate Governance.

b) Indication of the extent to which the Issuer departed from the set of corporate governance rules set forth in the „Best Practice Rules for WSE Listed Companies“, together with indication of those rules which the Issuer does not comply with, together with explanations of their non-compliance.

The Management Board of the Issuer shall make efforts to comply with the declared rules of the corporate governance and with rules forming relations between listed companies and their market environment. The Issuer shall take into account transparency of the Company which contributes to the creation of Company’s value for shareholders.

With regard to the rules set forth in section one of the set of corporate governance rules – „Recommendations for Best Practice for Listed Companies“ the Issuer shall convey the following statement on complying with the rules contained in section one (in accordance with preamble to „Best Practice Rules for SE Listed Companies“)

Rule 1

„A company should pursue a transparent and effective information policy using both traditional methods and modern technologies ensuring fast, secure and broad access to information. Using such communication methods to the broadest extent possible, a company should ensure adequate communication with investors and analysts, enable on-line broadcasts of General Meeting over the internet, record General Meeting, and publish the recordings on the company’s website“.

- The Issuer shall make effort to pursue a transparent and effective information policy and what most importantly to ensure the widest possible communication with investors. This is achieved by operating, within the organizational structure of the Issuer, Marketing and Media Communication Department and contracted services of a specialized and operating in the field of public and investor relations company CC GROUP Sp. z o.o. based in Warsaw. The Issuer shall ensure communication also through an extensive investor relations service on its website www.kopex.com.pl, which is constantly updated and improved (currently, the new service is building on the forthcoming new website of the Issuer). The Management Board of the Issuer, taking into account the shareholding structure, technical and organizational capacity, costs of on-line broadcast of general meeting as well as little experience of market in this area, found useless (in the current situation of the Company) to enabling on-line broadcast of General Meeting over the Internet, recording general meeting and publishing the recordings on the website. Additionally, the Company is obliged to convey informations related to general meetings in current reports and by posting specific information on the Company’s website by amended in the second half of last year provisions on general meetings and the mandatory information. For this purpose, the Issuer has separated on its website a special tab „General Meetings of Shareholder“. For communication in all matters related to the general meeting, the Company also provides an e-mail wza@kopex.com.pl.

Rule 2

„A company should ensure effective access to information necessary to assess the company’s situation and outlooks as well as its operations.“

- KOPEX SA, as a public company, convey and make publicly available information required using interim and current reports. Company also publish on-line monthly „Art of Mining“ on its website, which presents current events and interesting details in the activities of the Issuer and KOPEX Group companies. Effective access to these documents and other information on the functioning of the Company is ensured by the Issuer’s website www.kopex.com.pl. Conveyance of information is also run by periodically organized conferences of the Management Board, with the participation of the investors.

Rule 3

„A company should make every effort to ensure that any cancellation of a General Meeting or change of its date should not prevent or restrict the exercise of the shareholder’s right to participate in a General Meeting.“

- The Issuer shall follow in its action, in relation to the general meetings, generally binding legal regulations contained in Commercial Companies Code, provisions of the Company’s Statutes of Association and

provisions of the By-Laws of the General Meeting of Shareholders. These regulations regulate the legal options and rules for the participation of a shareholder of a public company in a general meeting.

Rule 4

„Where securities issued by a company are traded in different countries (or in different markets) and in different legal systems, the company should strive to ensure that corporate events related to the acquisition of rights by shareholders take place on the same dates in all the countries where such securities are traded.“

- This rule does not apply to securities of the Issuer because securities issued by the Company are not traded in different countries (or in different markets) and in different legal systems.

Rules given below (from 5 to 8 from the first part of the set of corporate governance rules) are observed by the Issuer and members of its organs.

Rule 5

„Remuneration of members of the company’s governing bodies should correspond to the scope of tasks and responsibilities of the exercised function and be proportionate to the size of the company’s business and reasonable in relation to its financial results.“

Rule 6

„A member of the Supervisory Board should have appropriate expertise and experience and be able to devote the time necessary to perform his or her duties. A member of the Supervisory Board should take relevant action to ensure that the Supervisory Board is informed about issues significant to the company“.

Rule 7

„Each member of the Supervisory Board should act in the interests of the company and from independent decisions and judgments, and in particular:

- *refuse to accept unreasonable benefits which could have a negative impact on the independence of his or her opinions and judgements;*
- *raise explicit objections and separate opinions in any case when he or she deems that the decision of the Supervisory Board is contrary to the interest of the company.“*

Rule 8

„No shareholder may be given undue preference over other shareholders with regard to transactions and agreements made by the company with shareholders and their related entities.“

With regard to the rules set forth in section two of the set of corporate governance rules – „ Best Practice for Management Board of Listed Companies“ the Issuer shall not comply with (partly or entirely) the following rules:

Rule 1 clause 4

„the date and place of a General Meeting, its agenda and draft resolutions together with their legal basis as well as other available materials related to the company’s General Meetings, at least 14 days before the set date of the General Meeting“

- Till the 3 August 2009, the date of entry into force of the amendment provisions of the Commercial Companies Code, the Issuer has published draft resolutions with enclosures at least 8 days before the set date of the General Meeting, in accordance with the applicable regulations (till 15 March 2009 §39 clause 1 point 3, in accordance with § 97 clause 5 of the Ministry of Finance Regulation dated 19 October 2005 on current report and periodic reports submitted by issuers of securities and after the repeal of above mentioned regulations: Ministry of Finance Regulation § 38 clause 1 point 3 in accordance with § 100 clause 5 dated 19.02.2009). Besides, the Issuer has conveyed informations on date, place and agenda of the General Meeting at least 3 weeks before the set date of the General Meeting.

- Rule is fully observed by the Issuer since the entry into force on 3 August 2009 regulation, dated 5 December 2008 on amendment of regulation – Commercial Companies Code and regulation on trading in financial instrument as well as Ministry of Finance Regulation dated 6 August 2009 which changed the regulation on current and periodic information conveyed by issuer of securities and conditions of recognizing as equivalent information requested by legal regulations of a country that is not a member country (Dz.U. Nr 131 z 2009, poz.1080). The Issuer shall publish the information referred to in clause 4 of Rule 1 on the Company’s website www.kopex.com.pl, tab „General Meetings of Shareholders“, as well as in the current report in accordance with binding regulations determined in §38 clause 1 and dates determined in §100 clause 3 and 5 of above mentioned Ministry of Finance Regulation, dated 6 August 2009.

Rule 1 clause 6

„annual reports on the activity of the Supervisory Board taking account of the work of its committees together with the evaluation of the work of the Supervisory Board and of the internal control system and the significant risk management system submitted by the Supervisory Board“

- there are no committees operating within the Supervisory Board, vide Section III Rule 8.

However, the supervisory authority of the Issuer shall report annually on the activity of the Supervisory Board, together with a concise evaluation of the Company's situation and self-evaluation of the work of the Supervisory Board as well as evaluation of the internal control system and the significant risk management. Report is adopted by the resolution of the Supervisory Board, and the Issuer publish its content (before date of the General Meeting) on the Company's website www.kopex.com.pl, tab Investor Relation / Corporate Governance.

Rule 1 clause 7

„shareholders' questions on issue on the agenda submitted before and during a General Meeting together with answers to those questions“

- the Issuer will place on its website answers to the shareholders' questions submitted in writing on issues on the agenda.

Rule 1 clause 11

„information known to the Management Board based on a statement by a member of the Supervisory Board on any relationship of a member of the Supervisory Board with a shareholder who holds shares representing not less than 5% of all votes at the company's General Meeting“

- the Issuer informs the public on CV and career of a new member of the Issuer's Supervisory Board, and in the Issuer's opinion, this information is sufficient for judgement if the person appointed is capable of exercising his/her function.

Such information shall be included in current reports and on the Issuer's website www.kopex.com.pl, tab Company / Authorities of the Company and shall contain information such as relationship of a member of the Supervisory Board with a shareholder who holds shares representing not less than 5% of all votes at the company's General Meeting“

Rule 2

„A company should publish its website in English, at least to the extent described in section II clause 1.“

- the Issuer does not comply with this rule to the extent described in section II.

The Issuer publish its website in several languages, including English and tries to publish on the website more and more information described in section II clause I. Currently, the new investor relation service is building on the Issuer's forthcoming new website (also in English). Currently the Issuer does not comply with this rule partly and ultimately the Issuer seeks for its full implementation.

With regard to the rules set forth in section three of the set of corporate governance rules – „ Best Practice for Supervisory Board Members“ the Issuer shall not comply with (partly or entirely) the following rules:

Rule 2

„A member of the Supervisory Board should submit to the company's Management Board information on any relationship with a shareholder who holds shares representing not less than 5% of all votes at the General Meeting. This obligation concerns financial, family and other relationship which may affect the position of the member of the Supervisory Board on issues decided by the Supervisory Board.“

- the Issuer informs the public on CV and career of a new member of the Issuer's Supervisory Board, and in the Issuer's opinion, this information is sufficient for judgement if the person appointed is capable of exercising his/her function.

Such information shall be included in current report as well as on the Issuer's website www.kopex.com.pl, tab Company / Authorities of the Company and shall contain information such as relationship of a member of the Supervisory Board with a shareholder who holds shares representing not less than 5% of all votes at the company's General Meeting“, if such situation occurs.

Rule 6

„At least two members of the Supervisory Board should meet the criteria of being independent from the company and entities with significant connections with the company. The independence criteria should be applied under Annex II to the Commission Recommendation of 15 February 2005 on the role of non-executive or supervisory directors of listed companies and on the committees of the (supervisory) board. Irrespective of

the provisions of point (b) of the said Annex, a person who is an employee of the company, a subsidiary or an associated company cannot be deemed to meet the independence criteria described in the Annex. In addition, a relationship with a shareholder precluding the independence of a member of the Supervisory Board as understood in this rule is an actual and significant relationship with any shareholder who has the right to exercise at least 5% of all votes at the General Meeting“.

- The Issuer's General Meeting of Shareholders elects a members of the Supervisory Board in accordance with regulations of the Commercial Companies Code and the Company's Statues of Association.

Rule 7

„The Supervisory Board should establish at least an audit committee. The committee should include at least one member independent of the company and entities with significant connections with the company, who has qualifications in accounting and finance. In companies where the Supervisory Board consist of the minimum number of members required by law, the tasks of the committee may be performed by the Supervisory Board“.

- The Issuer is of the opinion that forming committees within the Supervisory Board is not justified. The Supervisory Board works and takes decisions on the issue within its competence jointly. Members of the Supervisory Board are persons of proper qualifications and competence in this field. The Supervisory Board of the Issuer in the execution of the obligation referred to in Article 86 clause 3 and clause 7 of the Regulation, dated 22 May 2009, on chartered accountants and their self-government, entities authorized to audit financial statements and public supervision, has adopted on 27 November 2009 a resolution on the incorporation of the audit committee's tasks within the competence of the Company's Supervisory Board. According to the adopted resolution, the Supervisory Board, in view of the fact that is consist of not more than 5 members, has decided that will not establish the audit committee and the tasks of the committee determined in Art. 86 clause 7 of the above mentioned resolution will be implement by the Supervisory Board through the inclusion of these tasks within the Supervisory Board's tasks determined by the By-Laws of the Supervisory Board of the Company.

Rule 8

„Annex I to the Commission Recommendation of 15 February 2005 on the role of non-executive or supervisory directors (...) should apply to the task and the operation of the committees of the supervisory Board“.

- The Issuer is of the opinion that forming committees within the Supervisory Board is not justified. The Supervisory Board works and takes decisions on the issues within its competence jointly. Members of the Supervisory Board are persons of proper qualifications and competence in this field. The Issuer does not and will not comply with this rule. Establishing an audit committee as well as remuneration or commission committee, found to be irrelevant and useless.

c) description of the main features of the Issuer's Capital Group internal control and risk management in relation to the process of preparing financial statements and consolidated financial statements.

Rules of internal control and risk management are regulated, from the legal and formal side, by Company's internal acts, i.e. Organizational Regulations, internal regulations, internal control rules and instructions on making, circulation and inspection of financial accounting documents, stock-taking, cash desk, receivables vindication. The internal control and risk management is supported by implemented and still improved procedures of ISO 9001. The Issuer prepares financial statements in accordance with International Accounting Standards and International Financial Reporting Standards. Under the system of internal control and risk management, process of financial reporting is carried out in accordance to the company's above-mentioned formal and legal regulations. Data security is guaranteed by the company's system of restrictions on access rights and password security to the financial accounting system, as well as by the binding procedures for backup and its storage.

In the Issuer's opinion, internal control system of the company is a tool to ensure regularity of accomplishment and registration of business processes and regularity of their accounting records, monitoring, making correct documentation in the fields of: purchase, invoice payment, sale, receivables proceeds, cost calculation system, product pricing, salaries, remaining costs and income. Confirmation of the balance is carried out as regard all the financial transactions. Significant role in the internal control and risk management system has a Controlling Department, which, using computing systems, collects statistical database of selected information used in financial reporting, constantly monitors specified areas and identifies risk, periodically prepares analysis and reports on which the Management Board and the Supervisory Board may take management decisions in a timely manner to allow counter potential risk.

Annual financial statements are always audited by an independent chartered accountant, elected each year by the Supervisory Board of the Issuer from the bids submitted to the Issuer by auditors and are always subject to

evaluation by the Supervisory Board. The results of this estimation are presented to the shareholders of the company at a general meeting before the decision of the general meeting approving the financial statements. Half-yearly financial statements are reviewed by the chartered accountant.

Besides, the Management Board is obliged to obtain approval of the Supervisory Board prior to taking up any of the activities as follows:

1. raising a credit or a loan if liability amount resulting from a specific action exceeds 15% of net assets value, according to the latest balance sheet,
2. granting a credit or a loan if liability amount 15% of net assets value, according to the latest annual balance sheet.

The Supervisory Board, designates the chartered accountant on the basis of the current rules of law, in particular the regulations contained in the resolution dated 22 May 2009 on chartered accountants and their self-government, entities entitled to audit financial statements and public supervision and on the basis of the provisions of the „By-Laws on the designating the chartered accountant to audit the financial statements, consolidated and unit“, which determines the proceedings of the Management Board and Supervisory Board in designating the chartered accountant.

In accordance with the adopted statement of corporate governance (RB1/2008, dated 3.01.2008) in relation to non-compliance with Rule 7, Part III of the Best Practice Rules for Supervisory Boards contained in the „Best Practice Rules for WSE Listed Companies“ the Issuer has not appointed a committee for pay and committee for audit. Functions of these committees exercises the Supervisory Board of the Issuer. Members of the Supervisory Board has the appropriate knowledge and competence in this field.

The Supervisory Board of the Issuer in accomplishment of its duties referred to in Art. 86 Par. 3 and Par.7 of the Resolution dated 22 May 2009 on the chartered accountant and their self-government, entities entitled to audit financial statements and on the public supervision (Dz. U 2009 nr 77 poz. 649) on its session held on 27 November 2009 adopted a resolution on incorporating task of the audit committee into scope of tasks of the Supervisory Board. The Supervisory Board of KOPEX SA on the grounds of the adopted resolution and considering the fact that the Supervisory Board is composed of not more than 5 members, decided that no separate audit committee will be appointed and tasks of this audit committee, set forth in Art. 86 Par. 7 of the aforesaid resolution, will be accomplished by the Supervisory Board of the Company by means of including those tasks into scope of tasks of the Supervisory Board set forth in the By-Laws of the Supervisory Board.

For the §4 of the part III „Tasks and powers of the Supervisory Board“ of the „By-Laws of the Supervisory Board“ point 4 was added as follows:

„Specific tasks of the Supervisory Board under Art. 86 Par. 3 and Par.7 of the Resolution dated 22 May 2009 on the chartered accountant and their self-government, entities entitled to audit financial statements and on the public supervision (Dz. U 2009 nr 77 poz. 649) includes the following tasks of the audit committee:

- 1) monitoring the financial reporting process;
- 2) monitoring the effectiveness of internal control systems, internal audit and risk management,
- 3) monitoring performance of auditing;
- 4) monitoring the chartered accountant’s independence and the entity authorized to audit financial statements.“

5. ADDITIONAL INFORMATION

5.1. ESTIMATION ON FINANCIAL RESOURCES MANAGEMENT

On 31.12.2009 the financial situation of the Capital Group is as follows:

- credit liabilities at 31.12.2009 amounted to PLN 504.450 thou,
- capital at 31.12.2009 amounted to PLN 143.665 thou.

In 2009 the Group, through the effective management of financial resources, has secured a liquid financial service of trade liabilities and other financial liabilities.

The Group used its own cash, profit and depreciation, as well as external financing (credits, loan, leasing).

In 2009 the Company KOPEX SA issued a C-series shares, by which received PLN 157.000.000. Those resources were used for further Group's investments and acquisition in 2009.

The KOPEX Capital Group has a multi-purpose credit limits in a banks amounting to PLN 762,100.000 (PKO BP and ING Bank Śląski). Besides, during 2009 the Company KOPEX obtained two promises of a credits amounting to PLN 160.000.000.

In 2009 the Group repaid a loans and credit amounted to PLN 235.779 thou. The Group constantly regulates its credit interest liabilities to the banks. There are no overdue trade and public-law liabilities in the Group. Purchase of financial assets have been partially financed with own funds and partly through external financing.

Overdue debt collection was carried out intensively, contract payments were ongoing monitored and recovered.

Occuring excess of the capital were deposited into the banks (overnight deposits).

Liquidity ratio and liability ratio are constantly monitored, in order to keep them at a safe level.

The Group's entities prepares and monthly updates projected cash flow for a period of six months, which allows to respond flexibly to current and future financial needs of members of the Group.

Cost conditions for obtaining credit and guarantee lines are the result of individual negotiations, aimed at the lowest possible financial burdens. The Group has secured a favorable pricing conditions for three years (till 2011) in one of the banks. Good financial standing of the Group (constantly monitored and evaluated by the financing banks) allows the Group to use external financing at the current level, despite the global economic and financial crisis.

During the 2009 the Company KOPEX acquired 4, 5 and 9 – series registered bonds issued by Katowicki Holding Węglowy based in Katowice, with a total nominal value of PLN 67.500.000. The bonds redemption will follow as non-cash rendition in the form of coal supplies in 2009 and 2010.

The Group shall be protected against currency risk using forward-type derivatives. The Group manages hedge accounting and natural hedging. Did not apply and does not apply speculative transactions.

Banking negative valuation of hedging transactions opened on 31.12.2009 (subsumed through changes in equity and in income statement) amounted to PLN 27.224 thou. It should be noted that the future cash flows arising from implementation of the contracts are secured. At the time of delivery and collection of liabilities, negative valuation of the hedging instrument will be compensated by additional revenues of hedged item, thereby the planned profitability of the transaction will be preserved.

The Company secured the right to finance commercial transactions and finance acquisition planned for 2010 by the availability to the unused credit lines and promissory notes granted by the banks. The Company has many guarantee and insurance lines (required by domestic and foreign clients – bid bonds, advance payment guarantees, performance bonds and payments guarantees).

It should be emphasized that a good financial standing as well as access to bank lines of credit allows the Group to participate in many national and international tenders, in which one of the conditions is sufficiently high revenue potential of the offerer.

5.7. SIGNIFICANT RISK FACTORS.

CHARACTERISTICS OF INTERNAL AND EXTERNAL FACTORS WHICH ARE IMPORTANT FOR THE COMPANY’S DEVELOPMENT.

EVALUATION OF ATYPICAL FACTORS AFFECTING THE OUTCOME ON ACTIVITIES FOR THE FISCAL YEAR 2009.

Significant risk factors are presented in the following SWOT analysis

CHANCES	RISKS
<ul style="list-style-type: none"> • Ongoing price boom in commodity markets of the world; • Growth of interest in a feasibility projects in so far as mining industry – what bear testimony to upcoming significant investments in the world; • Growing interest in the supply of mining machinery and equipment as well as spare parts, e.g.: Romania, Middle 	<ul style="list-style-type: none"> • Rapidly progressive consolidation of the Company’s major competitors; • Lack of specialists in typical industrial occupations; • Generational gap among skilled miners in Poland; • Strengthening the position of competitive Polish and foreign companies;

<ul style="list-style-type: none"> • East, Argentina, China; • Possession of license to sell electricity, liquid fuels and goods of strategic importance; • Demand for mining services, also associated with the extraction of salt and other minerals; • Significant increase in quality of Polish industrial products and the attractiveness of the price; • Greater openness to the activity of Polish enterprises on world markets; • Increase in expenditures and requirements for environmental protection; • Increase in electricity prices; • Decrease in interest rates and thus the reduction of external financial cost 	<ul style="list-style-type: none"> • Weak government's support for Polish exporters; • Changes in legislation; • Changes in the tax system; • Possible of loss of skilled employees; • Increase of inflation factor; • Increase in labor costs / salaries; • Increase in electricity prices; • Increasing competition in global and national markets; • Delays in the milestone schedules of some agreements; • Expensive import kompletacyjny; • High barriers to entry in certain markets; • Increase in costs associated with reconstruction of production facilities owned; • Limits of use of production capacity; • Economic and financial crisis; • Faltering financial position of the Polish mining industry
MOCNE STRONY	SLABE STRONY
<ul style="list-style-type: none"> • Established position and brand at home and abroad; • Entry into new areas of sale, which require advanced technology; • Industry and geographical diversification of products and services; • Stability of cooperation with customers; • Beneficial ownership structure that provides a clear strategy for the development of the Capital Group; • Access to production facilities providing complex commercial offer; • Stable financial situation; • Extensive experience in conducting large investments projects worldwide; • A diversified portfolio of products and services offered; • Orientation in the needs of foreign contractors as well as in the production capacities of Polish industry of mining engineering; • Experience in obtaining funding and building of trade finance for investments projects; • Experience in successful reducing exchange rate risk; • Access to multipurpose credit limits 	<ul style="list-style-type: none"> • Large exposure to currency fluctuations; • Dissipation of the Company's assets; • Too low potential of the reserve personnel on implemented abroad projects; • Significant dependence of the value of revenue from economic trend in the coal mining industry.

Characteristic of market liquidity management, financial risk, currency risk and its susceptibility to change, as well as changes in interest rate risk, price risk and credit risk have been included in additional information of the financial statement.

According to the adopted in 2005 „Strategy for hedging currency risk and interest rates“, hedging dealings are made (in relation to the exchange rate assumed in the calculation of the bid) at the time of signature of the commercial contract, and in case of contracts on sale of coal / electric power at the time of forwarding order of the goods / electric power purchase.

The financial instruments hedging currency risk are forward dealings and in a very limited extent options. The Group applies the procedure for securing the actual financial flows does not close speculative dealings. The Company KOPEX SA applies hedge accounting.

At 31.12.2009 the Capital Group had open currency position amounting to:

- USD 93.532 thou,
- EUR 28.889 thou.

Bank negative valuation of the above mentioned derivatives amounted to PLN 27.224 thou.

Another unusual factor in the form of restrictions on lending by banks is not significantly affected the Company. The Capital Group has unused, multi-purpose credit lines, which allowed and allow for a smooth financing of current activities of the members of the Group.

5.8. OUTLOOKS FOR THE DEVELOPMENT OF THE ISSUER AND THE CAPITAL GROUP

The year 2010 is a difficult year across the world mining industry. Implementation of investments projects in the areas of building new coal mines, running new technologies and upgrading old is an imperative to many world economies. Many countries – whether producers and exporters of coal, or energy consumer and producers of steel, based on own coal resources – puts emphasis on the intensive development of this sphere

of their economies and launched implementation of far-reaching plans. After all, the global financial crisis has taken its toll on these processes. Hence, in the first two quarters of 2010 and perhaps in the whole 2010, will be a noticeable decline in purchase of investments goods associated with mining. However, this is not the effect of drop in demand for mining machinery and equipment, it results more from the problems associated with obtaining and preparing credit lines and financing procedures for such a large investments. Awareness of these factors in 2009 caused a very severe price competition among the major world supplier of mining equipment and services in world markets. It is presumed that many contracts were concluded with minimal (almost zero) margins. The reason was to maintain strategic market position, or at least prepare such a strategic position for future years that are expected to be a boom in mining. Future development and current situation of an industry can be better understood through the analysis of information and events at each of the world mining markets.

Australia

Extraction and export of coal (mainly coking coal) represents over 65% of the country's economic activity. At the moment, a characteristic in the Australian mining business is involvement in obtaining mining concessions and construction of new mines by foreign entities registering there subsidiaries. There they begin extraction activity – alongside local and international companies, thus far operating on this market – from the construction of mines on the coal reserves on the basis of concessions granted to them. Striking example is the involvement of a potent Brazilian concern Vale, which for the first time in its history, exactly in Australia, has engaged in abyssal coal operation. Kopex had made for this concern a delivery of integrated longwall system through its subsidiary INBYE Mining Services Pty. Ltd., on the basis of powered supports produced by TAGOR SA based in Tarnowskie Góry. Entry of national funds (Chinese, Indian and Brazilian) to the Australian market is seen as a new quality and a new trend. So far, the above-mentioned countries acquired the Australian coal through purchases from local or international mining concerns. Currently, they are establishing there own companies engaged in the operation of coal reserves. Of course, all existing coal producers are also increasing production by opening up new mining fields and the exchange of legacy systems to modern technology. This is a key market for the Group. It is the most technically demanding market in the world and references gained therein have unprecedented importance in other markets of mining equipment. Knowledge of the importance of that market was the reason for the funds involvement of Kopex in the previous years, through the acquisitions of companies operating there and through opening of new ones. Kopex had already invested there significant resources through acquisition of shares of INBYE Mining Services Pty. Ltd. in New South Wales, establishment of company Kopex Australia Pty. Ltd. in Queensland and most recently by acquisition of a company Waratah Engineering in New South Wales, which manufactures mining machinery for pillar-chamber technology. Underground coal mining technology in the pillar-chamber system is the second, in addition to longwall technology, most common method of mining. Waratah Engineering – in fact, already been formally named Kopex Waratah – is a manufacturer and supplier of shuttle cars, which are used for receiving excavated material from the „continupus miner“ shearer and for transport of this excavated material on the surface or to loading station of belt conveyors.

China

It is the largest and most dynamically developing market of the world mining. China – as previously announced – thoroughly modernising the structure of its mining industry. It is followed by processes of consolidation of small, technically old and dangerous to humans mines into large and modern consortia and mining companies. In 2010 China plans to exceed the barrier of an annual output at 3.1 billion tons. The government has assign the task to mining companies operating there - increasing output by 10 million tons annually. Obtaining such a results is possible only on the basis of the use of the latest generation of mining equipment, mainly longwall shearers with huge capacity and advanced control and monitoring systems. Chinese producers still do not have such devices, hence the Kopex Group pinned high hopes (in 2010) in the supplies of its newest shearers to this country. So far, Kopex successfully supplied power roof supports there. In this way, the last capital expenditure incurred on the development of those new equipment and production facilities are likely to be relatively quickly returned. Of course, this will enable the further intensive development of these equipment to meet the well-known global competitors. The Group expects also the development of sell of next powered supports, however – in the view of raised customs duty rates on these devices by the Chinese government – it will be done by increasing the activities of Chinese subsidiary Tagao in Shandong province. There will be also carried out promotion of other Group's products to make full use of Kopex presence in China in the field of basic machine-made systems of longwall technology. Currently, China's mining industry is not only known from dangerous mines and catastrophes. There also state of the art mines, whose mining level reaches 1 million tons of excavated material per month with only one discharge wall. Such results can not boast of any country, including Australia. Any other country, including Australia, can not boast of such results. Thus, sales of Kopex's systems in China is also an excellent reference for other mining markets.

India

It is – like China – intensively developing country , however suffering from shortages of energy to power economic and civilization growth. Development of the Indian mining industry comes up against many obstacles and complicated domestic conditions, slowing down progress in the intensification of mining. Large, already existing companies have a complex ownership structure. They are usually partially owned by central government and state and provincial authorities. The complicated political situation is not conducive to critical and important decisions concerning the development of mining industry. Small private investors have taken up the desperate decision to purchase a mining license outside India, although India have enormous coal reserves of both steam coal and coking coal. All these phenomena – together with the lack of experienced engineering staff that knows the problems of modern systems of mining – motivates coal companies to make unconventional business proposals for potential suppliers of mining systems. Usually it boil down to BOO or BOT proposals – proposals of long-term investment in the supply of mining systems, installation them in Indian mines and alone (or joint) mining. Profit on sale would be divided between the local coal mine owner and the contractor. However, it do not meet with a larger and more serious interest of the world’s leading manufacturers of equipment, since the great majority of the companies is not directly involved in the typical mining. Potential period for return on invested capital and the uncertainty as to long-term of business assumptions effectively discouraged to engage in such agreements. However, significant and beneficial changes were recorded in this area from the beginning of 2009. The most modern union Singareni (SCCL), partially owned by central government, and partly by the government of Andra Pradesh state, opened some classical tendering procedures and one of them ended with an agreement with Kopex Group’s competitor, namely the American company BUCYRUS. It concerned delivery of longwall systems and services for Adrala mine. In addition to wall systems it is also possible to sell products of companies such as Waratah and WAMAG, as well as simple individual legs produced by TAGOR. 2100 will be a breakthrough year in the Indian market. While the international mining exhibiton Kolkata 2010 in January 2010, the Indian government has presented a new strategy for the development of mining industry. The aforesaid company plans to build as many as 37 modern mines until 2017. Tenders for the supply of their equipment will have an international character based on clear and transparent rules of trade and technology. It is, therefore, a chance to open up by India for the supplies from the world’s leading manufacturers of mining machinery, including Kopex Group, known for supplies and mining services in the era of the CMEA.

South Africa

Renowned exporter of high quality steam coals. There are several international mining companies in this country. In recent years, there were opened up many smaller local mining companies usually operating on one open pit mine and/or abyssal mine. At the moment South Africa’s abyssal mines are dominated by systems to conduct pillar-chamber operation. This fact is associated with the specific geological areas in which mining is carried out and with the restrictions on the longwall mining front conduction arising from mining and geological conditions. In recent years there has been a significant increase in the number of electricity consumers, both on the part of the growing industry and of more modernly equipped households. Over the last three years, the state-owned energy corporation was not able to provide an adequate level of energy supplies and was often forced to the exemption of the periodic power shutdown supply in the considerable regions of the country. It concerned even the institution as preponderant as government facilities, hospitals, clinics and even international airports. As a result of the above mentioned problems, the South African government has decided on intensive expansion of the country’s energy base, by building new power plants and by modernizing and re-running facilities that have been excluded from the activity. However, due to longstanding investment cycle of building new power plants, at the moment the priority is to restore to the action and modernization of old power plants. This also leads to a sharp increase in demand for coal within the country. Many new mines (open pit and abyssal) are opened up (preferably near a potential recipient). At the same time, intensive design works of new abyssal mines are ongoing. Development and future prospects of African mining industry inclined the Group’s Management to expand the activities of the local company Kopex+Genwest by activity related to the production of mining equipment. So far, the company was engaged in the production and delivery of power systems and distribution of electrical power for abyssal mines. In the face of strong growth in demand for coal, return to longwall systems by mining companies is very probable. However, new energy facilities will require supplies at a level not less than 10-11 million tons per year. Therefore, large mining companies has already begun the analysis connected to return to longwall operation as the only one that is able to provide the expected level of output.

Indonesia

Renowned exporter of high quality steam coal. Coal mining is based solely on open pit mines. Currently, the outlook for the local mining industry is determined by two main geological and geographical factors. Open pit mines are a source of enormous problems of water and environmental devastation. The only reasonable way to continued operation of such mines become deep mining. This gives benefits such as significant less disruption of water and opportunity to preserve forest areas almost intact. However, the operation inclination of the

abyssal coal seams causes that the typical Australian mining technology (operation of flat seams) are not applicable in those conditions. What is needed is the ability of operation with an inclination of seams of 20 degrees, which – in Polish conditions – is not a problem. Experience in the operation of the inclined seams is a strong technological advantage of Kopex in the promotion and use of Polish experiences in the Indonesian conditions.

Russia

Traditional receiver of Polish longwall systems for coal mining. This market has been particularly affected by the financial crisis. In its initial phase, it has led almost to a halt in investment processes in major mining companies. However – according to the policy of the Russian government – coal is to be the primary energy carrier of the Russian economy, while the other fossil fuels, such as oil and gas remain the primary source of income coming from the export. Russia is the traditional receiver of the Group's products and services. In particular, high reputation have a longwall shears produced by Zabrzeńskie Zakłady Mechaniczne. An important fact in the Russian market has become an offensive of the Chinese manufacturers who can offer very attractive credit terms of supply of equipment. Noticeable is also intensive activity of Czech competitors who also have an attractive credit to customers, guaranteed by the Czech government. In the current financial circumstances we must be aware of the fact that the Chinese and Czech offers might prove to be attractive for the Russian coal producers. Our hopes lies in the fact that the willingness of Russian coal companies to provide the highest level of equipment which ensures the achievement of significantly higher capacity, has a very high technical parameters and high reliability, will encourage coal producers in Russia (or at least the most important of them) to pay closer attention to the latest technology of Kopex Group's companies. In 2010 we expect to sell at least several modern longwall shearers and scraper conveyors produced by Ryfama based in Rybnik, which has a good brand on this market and has been recently acquired by Kopex. By incorporating Ryfama into the Kopex Group's structure there is also a high probability of selling a longwall system to at least on of the Siberian coal companies. Russia is an attractive market, but it is still a developing market.

Mexico

Mining activity in this country is primarily related to the AMSA company, listed on the New York Stock Exchange. AMSA's area of activity is the supply of electricity to Mexico and the United States, as well as coal mining in Mexico (surface mining and underground mining). The main focus of the Group are the two mining companies belonging to the AMSA, namely MIMOZA and MICARE. Many global companies, including Polish's companies, takes part in tenders for the supply of mining machinery. So far, Ryfama has been successful, providing there two complete systems of scraper conveyors and even persuading the customers to change the way of operation of the beam stage loader from the American technology to the Polish technology. This gave the customers a significant increase in the level of extraction, which considerably strengthened the position of Ryfama in this market.

Domestic market

It is a traditional market for members of Kopex Group, where – depending on the type of equipment – they have more or less stable position as a suppliers. The strongest market position – due to the undisputed quality and technological level of its products – has Zabrzeńskie Zakłady Mechaniczne. The basic and attractive form of cooperation for the customers is a lease of longwall shears. There are plans to lease about 40 new longwall shears of various types. The difficult market situation has Tagor, based in Tarnowskie Góry – producer of powered roof supports. In the domestic market Tagor competes with Fazos – belonging to the competitive Famur Group, as well as with self-dependent producer - Glinik from Gorlice. There are also a number of smaller business entities on the market, offering the supply of new and modernized supports, hence the level of profitability – in a fierce competitive struggle – is very low. WAMAG from Wałbrzych is planning to provide to the domestic market an equipment related to the equipage of enrichment and coal preparation works (screens, centrifuges, crushers, etc.). In addition, the subject of supplies will be bucket crockery, complete belt conveyor and roadheader of the latest generation (a successfully working in the Murcki mine). FAMAGO from Zgorzelec will provide this year a unit of belt conveyors to the open-pit mine Turów and spare parts and subassemblies for mining equipment to mines Turów and Belchatów. Quite a significant breakthrough is a considerable increase in demand for mining services from KOPEX-PBSz from Bytom. The Company – apart from continuation of tunnel workings for KGHM – is launching a major contract on shaft sinking for Zofiówka mine and Peter shaft sinking for Mysłowice mine. KOPEX-PBSz has also acquired the contracts on the modernization of the shafts Budryk 1 i Budryk 2.

In the year 2009 total consolidated income amounted to PLN 2.313.452 thou. and it was higher than income gained over the same period in 2008 by 16,7%. Increase in domestic sale of goods by 25,3% and in export sale by 96,3% contributed to better result in total sales income.

In the year 2009 export sale amounted to PLN 806.326 thou. Income increased by 25,2% in comparison with the same period in 2008. Increase income from export sale was gained on electric energy sale and it was higher than sale in 2008 by 240,9% and on machinery and equipment sale and it was higher than sale in 2008 by 1,3%.

In the year 2009 income from sale on domestic market amounted to PLN 1.507.126 thou. Income increased by 12,6% in comparison with the same period in 2008.

Increase sale on domestic market was recorded mainly in mining machinery and equipment (by 31,1), and in mining services (by 42,3%).

5.10. MARKETS OUTLET OF THE CAPITAL GROUP

Main markets outlet of the Capital Group:

- Africa – electrical and electronic machinery and equipment ,
- America - electrical and electronic machinery and equipment,
- Argentina – mining machinery and equipment,
- Australia – mining machinery and equipment,
- Austria – electrical and electronic machinery and equipment, sale of coal and electric energy,
- Bangladesh – consulting services,
- Belarus – mining machinery and equipment; electrical and electronic machinery and equipment,
- Bosnia – castings; industry mining and machinery,
- Bulgaria – industry mining and machinery; electrical and electronic machinery and equipment,

- China – mining machinery and equipment,
- Croatia – industry mining and machinery,
- Czech Republic – mining services, mining machinery and equipment; electrical and electronic machinery and equipment, sale of electric energy
- Denmark – sale of coal,
- France – mining services, open-pit mining machinery and equipment,
- Spain – sale of coal,
- Netherlands – sale of coal,
- Indonesia – geological services,
- Iran – mining machinery and equipment,
- Kazakhstan – industry machinery and equipment, electrical and electronic machinery and equipment,
- Kosovo – castings,
- Lithuania - industry machinery and equipment, mining machinery and equipment,
- Macedonia - industry machinery and equipment, castings,
- Germany – mining services, mining machinery and equipment, industry machinery and equipment, electrical and electronic machinery and equipment, sale of coal,
- Norway – open-pit mining machinery and equipment, sale of coal,
- Poland – mining services, machinery and equipment for mining, industry and open-pit mining, electrical and electronic machinery and equipment, sale of energy and castings,
- Portugal – sale of coal,
- Russia – mining machinery and equipment, industry machinery and equipment, electrical and electronic machinery and equipment,
- Romania – mining machinery and equipment, electrical and electronic machinery and equipment,
- Serbia – industry machinery and equipment, castings
- Slovakia – electrical and electronic machinery and equipment, sale of electric energy and coal,
- Slovenia - industry machinery and equipment,
- Sweden – open-pit mining and industry machinery and equipment, electrical and electronic machinery and equipment,
- Ukraine - electrical and electronic machinery and equipment,
- Great Britain - electrical and electronic machinery and equipment, sale of coal,
- Hungary – mining machinery and equipment,
- Italy – mining services.

The largest customers of the Capital Group in 2009 are companies operating on mining machinery and equipment sale, mining services sale and energy sale. The customers are located in nearly 40 markets around the world.

In 2009, there is no customer, whose share of income sales exceeded 10% of the sales income of the Capital Group.

Major suppliers of the Company in 2009:

KOPEX SA act as central coordinator of the supply of materials for the whole Capital Group. The Group has developed network of supply, mainly based on domestic market. Part of the supply is effected within the Capital Group.

The Issuer's largest suppliers in 2009 in the sale of mining equipment and machinery, electric energy and coal are companies operating in the domestic market.

In 2009, there is no customer, whose share of income sales exceeded 10% of the sales income of the Capital Group.

5.11. SIGNIFICANT AGREEMENTS – EVENTS FOR THE COMPANY’S AND CAPITAL GROUP’S ACTIVITIES

During the reporting period the Issuer and its subsidiaries has conducted statutory business activity.

Kopex Group’s companies during the reporting period signed several trade agreements, including:

- on 30.07.2009 KOPEX-Przedsiębiorstwo Budowy Szybów concluded an agreement with Jastrzębska Spółka Węglowa on shaft deepening and execution of two sided shaft inlet 1 BZIE in JSW SA KWK „Zofiówka“. Value of the order amounts to PLN 180,5 millions. The shaft is to be completed in mid 2013 and it will be the largest investment in the Polish mining industry for over 20 years.
- agreements signed with Kompania Węglowa SA for leasing longwall shearers, supply of powered roof supports, screens, crushers, power hydraulics, conveyors, skips, spare parts, as well as for rendering specialised mining and repairing services of total value amounting to about 251.378 thou. PLN,
- series of agreements signed with Katowicki Holding Węglowy, altogether amounting to ca PLN 93.600 thou. The aforementioned agreements mainly included mining services, lease of longwall shearer, supplies of power hydraulics elements, friction props, skips, coal preparation equipment and spare parts,
- agreements signed with Jastrzębska Spółka Węglowa SA by individual companies of Kopex Group of total value amounted to about 64.841 thou PLN. The agreements mainly included lease of longwall shearers and mining services.

All significant information for 2009 are available on the KOPEX SA website: <http://www.kopex.com.pl/1495>

5.12. A LIST OF INFORMATION ON SIGNIFICANT TRANSACTIONS CONCLUDED BY THE ISSUER OR ITS SUBSIDIARY WITH RELATED PARTIES ON OTHER CONDITIONS THAN MARKET CONDITIONS, TOGETHER WITH THEIR VALUE AND INFORMATION DEFINING THE NATURE OF TRANSACTIONS

According to our knowledge, KOPEX SA or its subsidiaries or indirect subsidiaries did not sign in 2009 the transactions with related parties on conditions other than the market.

5.13. EXPLANATION OF DIFFERENCES BETWEEN THE FINANCIAL RESULTS DISCLOSED IN THE ANNUAL REPORT AND PREVIOUSLY PUBLISHED ESTIMATES OF THE RESULTS

KOPEX SA did not publish the estimates of the results for 2009.

5.14. INFORMATIONS ON CONTROL SYSTEM FOR OCCUPATIONAL PROGRAMS

At the day of this Statement, the Company does not have incentive programs for employees, based on shares of the Company.

5.15. STATEMENT ON THE NUMBER AND PAR VALUE OF KOPEX SA SHARES HELD BY THE MANAGERS AND THE SUPERVISORS OF KOPEX SA
